

Song Title: Ms. Ghost

[Intro: Dark trap beat, heavy bass, atmospheric tension building]

[Verse 1: Slow, fierce drill beat, raw delivery, gritty tone] Streetlights carve shadows on these unforgiving streets,  
No room for illusions—where truth and passion meet.  
Your name whispers danger, a flame burning too bright,  
A million stories in your wake, but with me, keep it tight.  
I'm done with pretense; here, we stand face to face—  
Ms. Ghost, drop the act, or get out my space! (throat punch line)

[Refrain: Rhythmic flow, aggressive, demanding]  
Speak the truth—no heavy lies,  
Ms. Ghost, is this real, or just fate in disguise? (sharp, cutting)

[Verse 2: Slow, fierce drill beat, more intense, urgent]  
Scars tell our battles, pain etched deep in our souls,  
This isn't a soft love song—it's the fire that makes us whole.  
Slice through the masquerade; let honesty shine through,  
No more games, no more masks—just me and the real you.  
I don't do smoke screens, don't test my sight, (throat punch line)  
One slip, one lie, and you're gone in the night.

[Refrain: Rhythmic flow, aggressive, demanding]  
Speak the truth—no heavy lies,  
Ms. Ghost, is this real, or just fate in disguise?

[Verse 3: Dark, haunting tone, building intensity]  
I hear echoes of laughter from ghosts of the past,  
Promises shattered, love never built to last.  
I ain't a pawn in a game full of tricks,  
Tell me now—are we real, or just another glitch?  
I don't chase shadows, don't play that role, (throat punch line)  
Keep it a hundred, or I'm turning cold.

[Bridge: Beat slows, becomes more melodic, introspective, vulnerable]  
Is this connection solid, or am I chasing a ghost?  
Can we shatter these barriers and reveal what matters most?  
Let our wounds mend in the glow of honest light,  
Before we drown in shadows and surrender to the night.

[Refrain (Variation): More intense, desperate, pleading]  
Speak the truth—no heavy lies,

Ms. Ghost, is this real, or just fate in disguise?  
Before time runs out, let our truth arise.

[Outro: Slow, fierce drill beat fades out, heavy bass, lingering sense of unease and finality]  
The beat fades slowly, but our promise remains,  
No more hidden scars or unspoken pains.  
With raw truth as our guide, together we'll ride—  
Ms. Ghost, real or fake? Decide.
